Agricultural Systems **30** (1989) 391–392

CONTENTS OF VOLUME 30

Number 1

Climate Indices for Application in Empirical Crop Production Studies . . 1
JAMES W. MJELDE & STEVEN E. HOLLINGER (USA)

A Model Simulating the Production of Dual Purpose Replacement Heifers . 15
JAN TIND SØRENSEN (Denmark)

Partitioning of Dry Matter Between Leaf and Stem in Coastal Bermudagrass . 35
A. R. OVERMAN & S. R. WILKINSON (USA)

Potential and Water-limited Wheat Yields in Rice Based Cropping Systems in Southeast Asia 49
P. K. AGGARWAL & F. W. T. PENNING DE VRIES (The Philippines)

Modeling Within-Plant Distribution of *Heliothis* spp. (Lepidoptera: Noctuidae) Damage in Cotton 71
WILLIAM M. THOMAS (USA)

Agricultural Drought Impact Evaluation Model: A Systems Approach . . 81
S. N. KULSHRESHTHA & K. K. KLEIN (Canada)

Book Reviews 97

Number 2

Corriedale Sheep Production when Supplemented with Ryegrass Pasture in Southern Peru 101
H. D. BLACKBURN, F. C. BRYANT, T. C. CARTWRIGHT & L. C. FIERRO (USA)

Agricultural Drought Impact Evaluation Model: Description of Components . 117
K. K. KLEIN, S. N. KULSHRESHTHA & S. A. KLEIN (Canada)

Agricultural Research and Cereal Technology Introduction in Burkina Faso and Niger 139
JOHN H. SANDERS (USA)

Putting Ideas into Practice 155
J. E. HOLT & D. SCHOORL (Australia)

Profitability Assessment of Animal Traction Investment: The Case of Northern Ghana 173
ANTHONY PANIN (Ethiopia)

Agricultural Systems (**30**) (1989)—© 1989 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Experimental Systems of Integrated and Organic Wheat Production . . . 187
P. VEREIJKEN (The Netherlands)

Book Reviews 199

Number 3

Economic Impacts of Small-Scale Irrigation under Drought Conditions in Northwestern Saskatchewan: An Application of the Agricultural Drought Impact Evaluation Model 205
K. K. KLEIN & S. N. KULSHRESHTHA (Canada)

Temporal Determinants of the Productivity of Rice–Wheat Cropping Systems . 217
J. C. FLINN (Philippines) & B. B. KHOKHAR (Pakistan)

Farm-level Analysis of Agricultural Insurance: A Mathematical Programming Approach 235
MICHAEL S. KAYLEN, EDNA T. LOEHMAN &
PAUL V. PRECKEL (USA)

Comparative Study of Energy Flow through Village Ecosystems of Two Co-existing Communities (the Khasis and the Nepalis) of Meghalaya in North-East India 245
SUPRAVA PATNAIK & P. S. RAMAKRISHNAN (India)

SOYBUG: An Expert System for Soybean Insect Pest Management . . . 269
HOWARD W. BECK, PIERCE JONES & J. W. JONES (USA)

Effect of Clipping Height and Interval on Coastal Bermudagrass Production . 287
A. R. OVERMAN & S. R. WILKINSON (USA)

Book Review 299

Number 4

A Simulation Approach for Evaluating Field Data from Grazing Trials . . 301
JOHN W. WALKER, JERRY W. STUTH &
RODNEY K. HEITSCHMIDT (USA)

Application of a Simulation Software to the Analysis of a Peasant Farming System 317
J. A. BERDEGUE (Chile), M. INSTALLE, Ch. DUQUE (Belgium),
R. GARCIA & X. QUEZADA (Chile)

Multiple Goal Feasibility of Forage Shrub Plantations in a Semi-arid Mediterranean-Type Agropastoral System 335
N. G. SELIGMAN, R. W. BENJAMIN & I. SPHARIM (Israel)

A Case Study in the Use of Soft Systems Methodology: Restructuring an Academic Organisation to Facilitate the Education of Systems Agriculturalists . . . 351
ROBERT D. MACADAM & ROGER G. PACKHAM (Australia)

Impact of Agronomic and Economic Factors on Farm Profitability . . . 369
B. R. HANSEN & M. A. KRAUSE (Australia)
